

ON THE GO

## Do you need a medical alert system?

- Are you over 65? Do you live alone?
- Do your loved ones worry about your well-being when you are home alone?
- Is it important for you to continue living independently?
- Have you had a fall or other emergency situation in the last 12 months?
- Do you worry about falling and not being able to get help?
- Do you worry about safety in the shower?
- Have you been hospitalized or visited the ER in the past 2 years?
- Do you have any of the following conditions? Heart condition, Stroke, Diabetes, COPD, Osteoporosis, Arthritis
- Do you take 2 or more medications on a daily basis?
- Do you use a cane, walker or other device to help with balance or walking?

If the answer is “Yes” to more than 3 of these questions, a medical alert system is highly recommended to keep you safe and secure.

Our medical alert solution provides independence, security, and peace of mind.

**Medical Alert Solutions for  
Seniors and Caregivers**

Get help when you need it most

40% of seniors fall each year

Help at the Push of a Button  
In the event of a fall or other emergency, our medical alert system can get you help quickly.

# The Right Medical Alert System for You

**Sidekick Home**  
For people who spend more of their day in or around their home. Our in-home cellular system works even for customers without a traditional landline.

**Sidekick**  
For people who leave the home and want an added sense of security in and out of the house. Mobile with GPS helps identify your location in the event of an emergency.

**Sidekick Smart**  
For people who lead an active lifestyle but want a sense of security in and out of the house. Track steps, monitor heart rate, and get emergency help in a modern, sleek smartwatch.

**Fall Detection**  
Our medical alert system with Fall Detection uses a proprietary sensor within the help button that automatically notifies us when it determines that you have fallen.

# Caregiver Solutions

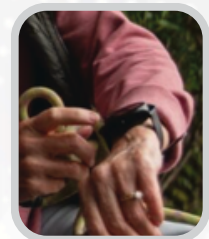

**Caregiver Notifications**  
Real-time notifications and alerts can be sent to your loved ones and caregivers via SMS and email.

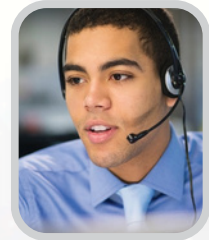

**Find My Loved One**  
Your loved ones and caregivers can instantly locate you with a text message.

**Alexa**  
Track a loved one's location in real-time, 24/7 using an Amazon Echo, or a smartphone. This exciting innovation provides a pathway to monitor elderly loved ones remotely, increasing peace of mind and confidence in safety.

# What Happens in an Emergency

1 Press your medical alert device.

2 Care Specialists are ready to assist.

3 Caregiver is contacted. Help is on the way.

OUR CARE SPECIALIST CAN STAY ON THE LINE UNTIL HELP ARRIVES.

**Emergency Response Time In Under 15 Seconds**
